

YERVAND GARNIK PARONIKYAN

Head of the Chair of Medical Chemistry and Biology,

Doctor of Chemical Sciences, Professor

E-mail: ervand.paronikyan@mail.com

Education

1968-1973 – Yerevan State University, the faculty of “Chemistry”

1976-1978 – Internship at the Institute of Fine Organic Chemistry of the Academy of Sciences of Armenia

Scientific degree

1997 – Doctor of Chemical Sciences, “Research in the field of synthesis, chemical properties and biological activity of condensed pyrroles and pyridines” (B.00.03, B.00.10)

Work experience

1978-1986 – Junior scientific worker at the Institute of Fine Organic Chemistry

1986-1999 – Senior scientific worker at the same Institute

1999-2015 – Leading scientific worker at the same Institute

2015-present – Head of the laboratory of “Synthesis of psychotropic compounds” at the same Institute

1991-2015 – Teacher at the Armenian Medical Institute

2015-present – Head of the AMI Chair of Medical Chemistry and Biology

Lectures

Bioorganic chemistry

Bioinorganic chemistry

Scientific research

Target synthesis of biologically active compounds endowed with high efficiency on the basis of condensed heterocycles. Detection and investigation of new regroupings. Development of methods for the synthesis of new heterocyclic systems.

Membership

Armenian Chemical Society

RA STCOPC Academic Board

AMI Academic Board

Specialized Council for Chemistry 010 of the Higher Attestation Commission

Russian Academy of Natural Sciences

New York Academy of Sciences

Published scientific articles, manuals and patents - 145
